Patent Interference Proceedings

Agency: Patent and Trademark Office, Commerce.
Action: Final Rule
Summary: The Patent and Trademark Office (PTO) is amending its rules of practice in patent interference cases. The U.S. District Court for the District of Columbia recently decided *Kochler v. Mustonen*, Civil Action No. 90-1074 (D.D.C. Apr. 23, 1991). The District Court held that PTO practice regarding taking of testimony abroad was not clear. PTO rules require that a testimony period be set. The rules also require that testimony be taken during the testimony period. Rule 684 authorizes testimony to be taken abroad. However, rule 684 requires that a motion be filed for leave to take testimony abroad and that the motion be filed before the close of a party's testimony period. The District Court suggested that a motion to take testimony abroad, filed in PTO on the last day of the testimony period, could be considered timely even though taking of the testimony might occur after the testimony period. By this amendment, PTO will continue to authorize the filing of a motion to take testimony abroad. However, a party will have to file the motion within a time such that the testimony can be taken during the testimony period set under PTO rule 651.
Effective Date: Sept. 27, 1991
For Further Information Contact: Fred E. McKelvey by telephone at (703) 557-4035 or by mail marked to his attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, DC 20231.
Supplementary Information: The PTO conducts interference proceedings to determine who as between two or more applicants for patent or one or more applicants and one or more patentees is the first inventor of a patentable invention. As part of its proofs in an interference, a party may request leave to take testimony abroad. 37 CFR §1.684 (1990).

The U.S. District Court for the District of Columbia recently decided *Kochler V. Mustonen*, Civil Action No. 90-1074 (D.D.C. Apr. 23, 1991). The District Court held that PTO practice regarding taking of testimony abroad was not clear. PTO rule 651 (37 CFR §1.651 (1990)) requires that a testimony period be set. Rule 651 also requires that testimony be taken during the testimony period. Rule 684 (37 CFR §1.684 (1990)) authorizes testimony to be taken abroad. However, rule 684 requires that a motion be filed for leave to take testimony abroad and that the motion be filed before the close of a party's testimony period. The District Court suggested that a motion to take testimony abroad, filed in PTO on the last day of the testimony period, could be considered timely even though taking of the testimony might occur after the testimony period.

In a notice of proposed rule making published in the FEDERAL REGISTER on June 12, 1991 56 FR 26949, paragraphs (a) and (d) of rule 651 and rule 684 were proposed to be revised to require a party to file the motion to take testimony abroad within a time such that the testimony could be taken during the testimony period set under PTO rule 651.

One written comment was submitted by a Chief Executive Officer who stated his support of the proposed amendment. An attorney commented that the proposed amendment of §1.684 appeared to foreclose the taking of testimony beyond any original time set under §1.651. The attorney suggested language be added to paragraph (c) stating the alternative that testimony abroad must be completed within the time set under §1.651 or by the Examiner-in-Chief. This suggestion has been adopted.
Other Considerations: The rule changes are in conformity with the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et. seq.*), Executive Orders 12291 and 12612 and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et. seq.*

The General Counsel of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that these rule changes will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The principal impact of these changes is to clarify the need for taking testimony abroad during the testimony period. The rule changes include no additional or increased fees. Substantive rights are not adversely affected.

The Office has determined that these rule changes are not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. Because most of the changes do not change burdens, there will be no major increase in costs or prices for consumers; individual industries; Federal, state or local government agencies; or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The rule change will not impose any additional burden under the paperwork Reduction Act of 1980, 44 U.S.C. 3501 *et seq.*

The Office has also determined that this rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

List of Subjects in 37 CFR Part 1

Administrative practice and procedure, Courts, Inventions and patents.

For the reasons set forth in the preamble and pursuant to the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. 6 and 135, the PTO is amending 37 CFR part 1 as follows:

Part 1 —Rules of Practice in Patent Cases

1. The authority citation for 37 CFR part 1, Suspart E, continues to read as follows:

Authority: 35. U.S.C. 6, 23, 41 and 135.

2. Section 1.651 is revised as follows:

§1.651 Setting times for discovery and taking testimony, parties entitled to take testimony.

(a) At an appropriate stage in an interference, an examiner-in-chief shall set (1) a time for filing motions (§1.635) for additional discovery under §1.687(c) and (2) testimony periods for taking any necessary testimony (testimony includes testimony to be taken abroad under §1.684).

(b) Where appropriate, testimony periods will be set to permit a party to:

(1) Present its case-in-chief and/or case-in-rebuttal and/or

(2) Cross-examine an opponent's case-in-chief and/or a case-in-rebuttal.

(c) A party is not entitled to take testimony to present a case-in-chief unless:

(1) The examiner-in-chief orders the taking of testimony under §1.639(c);

(2) The party alleges in its preliminary statement a date of invention prior to the earlier of the filing date or effective filing date of the senior party;

(3) A testimony period has been set to permit an opponent to prove a date of the invention prior to the earlier of the filing date or effective filing date of the party and the party has filed a preliminary statement alleging a date of invention prior to the date; or

(4) A motion (§1.635) is filed showing good cause why a testimony period should be set.

(d) Testimony, including any testimony to be taken abroad under §1.684, shall be taken and completed during the testimony periods set under paragraph (a) of this section. A party seeking to extend the period for taking testimony must comply with §1.635 and §1.645(a).

3. Section 1.684 is revised as follows:

§1.684 Testimony in a foreign country.

(a) An examiner-in-chief may authorize testimony of a witness to be taken in a foreign country. A party seeking to take testimony in a foreign country shall, promptly after the testimony period is set, file a motion (§1.635):

(1) Naming the witness

(2) Describing the particular facts to which it is expected that the witness will testify.

(3) Stating the grounds on which the moving party believes that the witness will testify.

(4) Demonstrating that the expected testimony is relevant.

(5) Demonstrating that the testimony cannot be taken in this country at all or cannot be taken in this country without hardship to the moving party greatly exceeding the hardship to which all opposing parties will be exposed by the taking of the testimony in a foreign country.

(6) Accompanied by an affidavit stating that the motion is made in good faith and not for the purpose of delay or harassing any party.

(7) Accompanied by written interrogatories to be asked of the witness.

(b) Any opposition under §1.638(a) shall state any objection to the written interrogatories and shall include any cross-interrogatories to be asked of the witness. A reply under §1.638(b) may be filed and shall be limited to stating any objection to any cross-interrogatories proposed in the opposition.

(c) If the motion is granted, taking of the testimony abroad must be completed within the testimony period set under §1.651 or within such time as may be set by the Examiner-in-Chief. The moving party shall be responsible for obtaining answers to the interrogatories and cross-interrogatories before an officer qualified to administer oaths in the foreign country under the laws of the United States or the foreign country. The officer shall prepare a transcript of the interrogatories, cross-interrogatories, and recorded answers to the interrogatories and cross-interrogatories and shall transmit the transcript to BOX INTERFERENCE, Commissioner of Patents and Trademarks, Washington, DC 20231, with a certificate signed and sealed by the officer and showing:

(1) The witness was duly sworn by the officer before answering the interrogatories and cross-interrogatories.

(2) The recorded answers are a true record of the answers given by the witness to the interrogatories and cross-interrogatories.

(3) The name of the person by whom the answers were recorded and, if not recorded by the officer, whether the answers were recorded in the presence of the officer.

(4) The presence or absence of any party.

(5) The place, day, and hour that the answers were recorded.

(6) A copy of the recorded answers was read by or to the witness before the witness signed the recorded answers and that the witness signed the recorded answers in the presence of the officer. The officer shall state the circumstances under which a witness refuses to read or sign recorded answers.

(7) The officer is not disqualified under §1.674.

(d) If the parties agree in writing, the testimony may be taken before the officer on oral deposition.

(e) A party taking testimony in a foreign country shall have the burden of proving that false swearing in the giving of testimony is punishable as perjury under the laws of the foreign country. Unless false swearing in the giving of testimony before the officer shall be punishable as perjury under the laws of the foreign country where testimony is taken, the testimony shall be entitled to the same weight as testimony taken in the United States. The weight of the testimony shall be determined in each case.

Transition Period Waiver for Implementation of New Rules for Filing An Information Disclosure Statement

New rules on the duty of disclosure and information disclosure statements, effective March 16, 1992, were published in the *Federal Register* at 57 FR 2021 (January 17, 1992) and in the *Official Gazette* at 1135 Off. Gaz. Pat. Office 13 (February 4, 1992).

In order to effect a smoother transition to the new rules, the requirements in 37 CFR 1.97(c) for either a § 1.97(e) certification or the fee set forth in § 1.17(p) are waived for the transition period of March 16 to April 30, 1992. This means that an information disclosure statement complying with § 1.98, filed in the transition period in an application where the first Office action has been mailed, but a final Office action or Notice of Allowance has not been mailed, will be considered by the examiner without either a § 1.97(e) certification or the fee set forth in § 1.17(p).

All provisions of the new rules will be fully effective for any information disclosure statement filed on or after May 1, 1992.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effctive access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is urged to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
